Weird things happening on **High Sierra**. My iCloud KeyChain synchronization was switched off (I didn't do that). When switching it on, I'm asked for several passwords, needed to type my Apple ID pwd twice, and also the password on my work-computer (that also syncs) but is on a totally different network...

YES! My first Python pull-request (<https://github.com/pallets/werkzeug/pull/1216#event-1402930900>) (for Werkzeug, Flask inner machine) is merged! Microsoft Edge can now be detected.

## Added edge browser detection #1216

**Merged** mitsuhiro merged 1 commit into pallets:master from doekman:818-useragents-detecting-Microsoft-Edge
